Course aim and objectives

This one day workshop will help clinical and scientific investigators refine their concept into a proposal for a clinical trial and/or translational research study. It will provide information, advice and guidance on how to develop a concept outline from an initial idea or clinical/scientific question by specifying a suitable aim, objectives, population, interventions, study design, outcome measures, sample size, analysis plan and funding strategy, as well as further tips and hints on developing your proposal into a funding application, letter of intent (LOI) or a full study protocol.

Who should attend

This workshop is designed for investigators (including e.g. clinicians & basic scientists) who have an idea for a clinical trial or translational research or are suitably qualified individuals pursuing clinical research. Investigators from any therapeutic area or discipline are welcome to attend.

Required Preparation

Participants are required to submit a brief outline of their proposed study on their registration by Friday, 29th March 2013. A concept template will then be provided to attendees for preparation prior to the workshop.

Workshop Program

Faculty from the NHMRC Clinical Trials Centre (CTC) will be running the workshop to facilitate the development of proposals. The program format will consist of a combination of presentations, exercises and interactive group discussions. Participants will work on their proposed concepts throughout the day and present them for discussion and feedback.

Topics will include:

- Developing a health intervention
- Background and rationale
- Aims, objectives, hypotheses
- Study design
- Population, setting, interventions
- Developing and analysing a new biomarker
- Statistical considerations
- Study procedures

as relevant to Clinical Trial or Translational Study proposals

This workshop will also be run on 26 July and 1 November 2013
Registrations close Friday 29th March, 2012.

All travel, accommodation and parking costs are at the attendees’ expense.

Morning Tea, Lunch & Afternoon Tea will be provided, please outline any dietary requirements on your registration.

Parking: Attendees are encouraged to use public transport or park at one of the parking stations at Royal Prince Alfred Hospital (fees apply) and walk to the Medical Foundation Building on Parramatta Road as street parking is very limited.

Upon arrival, please go to Level 5 Training room, ph 9562 5012
